

EVERYTHING, ON ONE SHEET

A website your community owns outright.

Websites for masajid, Islamic nonprofits, schools and Muslim-owned businesses, at a fixed price agreed in writing before any money moves. At the end you own the site, the code, the domain and every login — **no platform to keep renting, nothing to be locked into.**

A FULL BUILD	CARE, MONTHLY	WHO OWNS IT	TIMELINE
\$1,200–\$10,000+ Three published tiers, smallest masajid lowest by design.	From \$50 Optional. No term, cancel any time, you keep the site.	You do Code, domain and logins, handed over at launch.	2, 4 or 6 weeks You pick the window; the quote commits to it.

What a build includes

- ◆ A custom design in light and dark — not a theme with your logo dropped in.
- ◆ Core pages — home, about, programs, events, give, contact — plus what your work needs.
- ◆ **Migration** off your current platform, with redirects so no existing link breaks.
- ◆ Donations kept on the halal-friendly platform you already trust, not moved.
- ◆ Analytics, search, accessibility and speed treated as part of the job, not extras — plus an **automated test suite** run before launch, and training for your team.

What a care plan covers

- ◆ **Included every month:** prayer, jumu'ah and iqamah times; Ramadan timings; events; announcements; text and photo changes.
- ◆ Hosting, security patches, backups and uptime monitoring. About two business days' turnaround, time-sensitive items first, and no per-item counter.
- ◆ **Quoted separately:** a whole new page, a campaign page, a new giving flow — priced in writing first. Cancel whenever; nothing switches off, because you already own it.

The arithmetic worth doing before you choose anyone

There are cheaper and even free options, and for a very small masjid one may genuinely be right. But several charge in ways that grow with your community rather than with the work — a cut of every donation, a monthly tier to keep prayer times visible, or a free site you never own.

Rented, with a percentage taken

One percent of everything given, at a masjid raising \$300,000 a year — charged for as long as the site exists, and rising every year your community gives more.

\$3,000
PER YEAR, FOREVER

Owned, paid once

Built for you and handed over whole. Care afterwards is optional and monthly, and cancelling it does not take the website with it.

\$1,200–\$4,000
ONE TIME

How it goes

ONE	TWO	THREE	FOUR
A twenty-minute call No pitch, no deck, and nobody asks for a decision on it. If we are the wrong people we say so then.	A fixed quote in writing Scope, price and a date window. Fifty percent to begin, the balance at launch. Never billed by the hour.	Build and migrate Reviewed by you on a private link as it is built, not revealed at the end. Two revision rounds included.	Launch, then stay Training, every login handed over in writing, and a care plan if you want one.

What we would ask of you

Your content and logins, and one person who can decide without a six-week committee cycle — the difference between a four-week project and a four-month one.
